

Please stop the FCC rule change on June 2.

I feel the reason you all are not hearing from the public is because the media is not reporting it. The only station I have heard say anything about this change is NPR. I truly think anyone who knew this change was about to take place would be against it.

The media should be serving the public interest but if most of the station and newspapers are owned by a few company there would not be diversity due to limited competition.

Please hold the FCC to its mandate and oppose the change.

Sincerely,

Zandra Z. Gruber
